WHITE PAPER

It is required that you read this legal disclaimer section carefully. If you have any doubts, get advice from legal, financial, taxation, or other competent law practitioners. All of the information provided here is not intended to be complete, and it should never be construed as a part of different contractual arrangements.

It is our firm conviction that the information provided in this white paper is accurate and up to date and that all products, services, technical architecture, token distribution, and company timelines are accurate and up to date. Furthermore, all of these materials may have changed without notice, and they can never be considered a signatory agreement of advice.

No Advice:

This white paper does not obligate anybody to sign a contract or make a legally enforceable commitment to contribute. This white paper also does not constitute any form or part of any opinion that can be construed as advice, or that can be used to sell or solicit any offer by Trillions to purchase our token, nor shall it be construed as a part of any effect that can be used in the formation of a contract or an investment decision.

Compliance with tax obligations:

Users of the Website are entirely responsible for determining what, if any, taxes, if any, apply to their transactions. The Website's owners or authors are not responsible for determining which taxes apply to transactions.

Limitation of liability

RULE shall not be held liable for any loss or harm resulting from the use of this website's material, including written material, links to third-party sites, data, quotations, charts, and buy/sell signals. Please be fully informed about the dangers and expenses of trading assets on the financial markets (digital or otherwise). ICOs, in particular, are one of the riskiest investing options. There's a chance you'll lose your whole investment.

Investment risks

Trading cryptocurrencies have a high level of risk and is not suited for all investors. You should carefully evaluate your investing goals, level of expertise, and risk appetite before opting to trade cryptocurrencies, tokens, or any other digital asset.

INTRODUCTION

TopologyCoin is a blockchain-based application from TopologyPro Company that enables participatory ways for improving the appearance of technical identities. Our forward-thinking inspirations enable us to remain competitive in the market and to support customers facing severe commercial challenges through the use of blockchain technology. We have arrived at the point where IT Services and Internet Methodologies can be generalised with the purpose of expanding adoption and attaining growth. We develop and maintain mobile and web applications to assist organizations in locating competent employees and enhancing your brand's image in order to attract new clients. We want to collaborate on problems and concerns and to learn from our work. It is critical to maintain communication with clients and stakeholders throughout the product development and launch process.

Our MISSION

Our Mission is to serve clients with the best services using validated and updated knowledge. The first priority of our company is to ensure to gain the satisfaction of clients through our complete resources & skills. We provide reliable products following modern standards in an affordable range. Our main focus is clients satisfaction ethically through cost-effectiveness, professionalism, respect and teamwork.

Mission

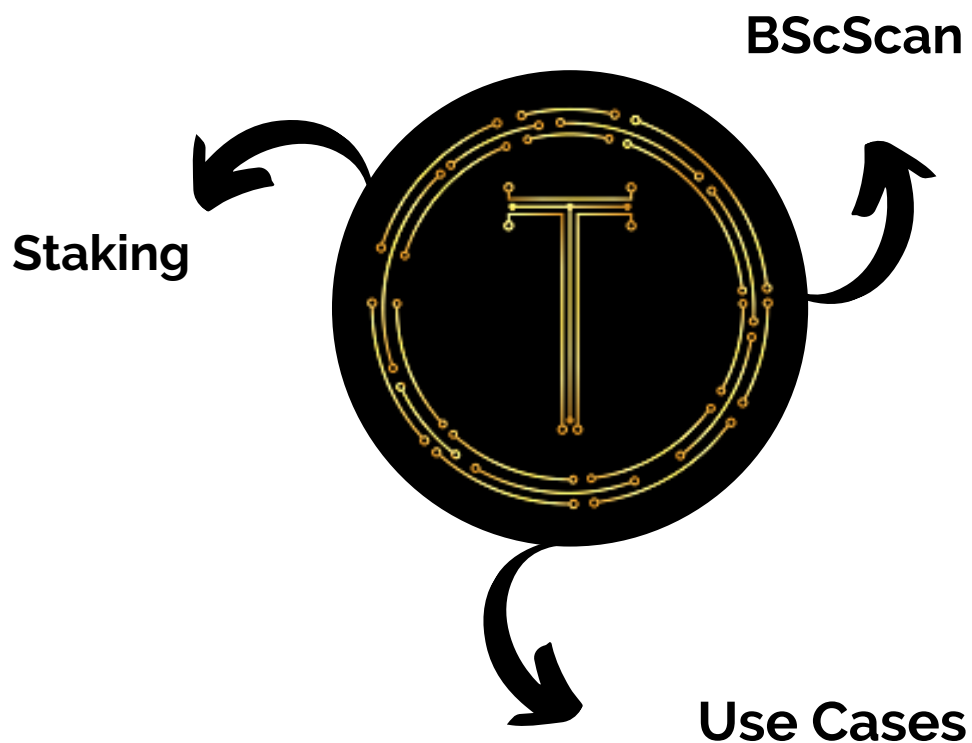

Our Vision

Our Vision is to provide products and services that are both affordable and of high quality. In this modern period, our products will give updated features in accordance with the needs of clients at an accessible price in order to foster confidence and dependability among customers. Our staff is concentrating on better understanding the demands of clients in order to supply them with products that are in accordance with their wishes.

ECOSYSTEM

TopologyCoin Ecosystem is unique in that it is built entirely on BscScan's blockchain technology. Staking, which is a safe and profitable method, lies at the heart of TopologyPro's blockchain technology. TopologyCoin's Ecosystem is substantially more robust and expansive, as it encompasses a wide range of use cases, including wider concepts, Staking, and its use cases.

BSCSCAN

In terms of trading volume and staking services, TopologyCoin currency exchange is the best. Binance Staking safeguards users' funds by employing advanced security measures and establishing a Secure Asset Fund (SAFU). Our staking approach is currently one of the safest and most environmentally friendly ways to make money with cryptocurrency. To keep track of all staked tokens, the platform employs a secure wallet and double-checking.

TopologyCoin is deemed to be quickly becoming a way of passive income generation by just holding or locking assets in a wallet.

TopologyCoin staking systems allow investors to stake and earn rewards even if they have no technical knowledge of blockchain. Securing public access to staking cryptocurrencies necessitates a high level of technological and regulatory expertise.

You can earn large returns on your investment with little time and effort thanks to the staking network's ability to authenticate stakes. Staking businesses that allow investors to get staking incentives have sprung up all over as bitcoin staking has risen in massive popularity. If you want to make money by staking Cryptocurrency, this is the place to be.

If you want to make money by staking Cryptocurrency, this is the place to be.

PANCAKE SWAP

TopologyCoin is listed on Pancakeswap, a well-known Dex. PancakeSwap is an automated market maker, which is a form of DEX (AMM). There are no order books, bid/ask systems, or limit/market orders in this system. Instead, participants trading on the platform automatically draw liquidity from one or more liquidity pools, which rebalance after each trade.

METAMASK

MetaMask is a cryptocurrency wallet that is software-based and may be used to communicate with the Ethereum network. A browser extension or mobile app is provided to allow users to access their Ethereum wallet, which may subsequently be used to interact with decentralised applications.

USE CASES

The use cases of blockchain technology extend well beyond bitcoin and include a wide range of sectors. Because of its ability to increase transparency and fairness while also saving businesses time and money, blockchain technology is having an impact on a wide range of sectors, affecting everything from how contracts are enforced to how governments operate more efficiently. The use case or the application of TopologyCoin are also very broader and have variety in its uses. The Platform also provides different kinds of services in its use case.

USE CASES - PROSPECTUS

Banking & Finance

A bank is a financial middleman that creates money by lending it to borrowers, resulting in a balance sheet deposit. Lending can be done directly or indirectly via capital markets. TopologyCoin also works with Banks that are heavily regulated in most nations due to their financial system and economic impact. Most countries have adopted a system of fractional reserve banking, where banks keep liquid assets equivalent to only a fraction of their current liabilities.

Real Estate

Real estate is defined as "property comprised of land and structures on it, as well as natural resources such as crops, minerals, or water; immovable property of this sort; an interest in this (also) real property; (more broadly) buildings or houses in general." Additionally, the real estate business is the profession of purchasing, selling, or renting land, buildings, or homes."

Education & Training

To educate means to pass on knowledge, skills, attitudes, beliefs and habits from one generation to the next through narrative, discussion, teaching, training, and research. Informal education is the informal transmission of knowledge from one individual to another. Education is often guided by others, but it can also be self-directed (autodidactic learning). Any experience that shapes one's thoughts, feelings, or actions might be deemed instructive.

Healthcare

Treatment of physical and mental problems in humans is known as health care. Allied health, dentistry, midwifery (obstetrics), medicine, nursing, optometry, pharmacy, psychology, and other health professionals provide care. It includes work in primary, secondary, and tertiary care, as well as public health.

USE CASES- PROSPECTUS

Web & Media

Social media tools are computer-mediated tools that enable individuals to produce, share, and exchange information, ideas, and images/videos within virtual communities and networks. Social media is defined as "a collection of Internet-based apps that are built on the conceptual and technological underpinnings of Web 2.0 and enable the creation and exchange of user-generated content." Additionally, social media platforms rely on mobile and web-based technology to enable individuals and communities to share, co-create, discuss and alter user-generated content. They fundamentally change the way corporations, organisations, communities, and individuals communicate. These transformations are the subject of the newly emerging field of techno self-studies.

Travel & Tourism

Tourism is travel undertaken for recreational, leisure, religious, family, or business interests and is typical of a short length. While tourism is frequently connected with foreign travel, it can also relate to travel within a country. According to the World Tourism Organization, tourists are individuals who "travel to and remain in locations outside their regular surroundings for a period of no more than one year consecutively for leisure, business, or other objectives."

Hotel & Hospitality

The hospitality business is a large group of service-related industries that encompasses accommodation, event organising, theme parks, transportation, cruise lines, and other tourism-related industries. The hotel sector is a multibillion-dollar industry that is dependent on leisure time and the disposable income available. A hospitality unit, such as a restaurant, hotel, or amusement park, comprises several distinct departments, such as facility maintenance, direct operations, and marketing (servers, housekeepers, porters, kitchen workers, bartenders, management, marketing, and human resources etc.).

SERVICES

Application Development

We create answers to the most difficult information technology problems. Our team of Experts takes one of two methods to the development of their projects. During a full application project, we take full responsibility for the analysis, design, implementation, testing, and integration of the systems under consideration. As part of cooperative development, our IT experts collaborate with your IT professionals in order to collaboratively investigate, create, implement, test and integrate solutions for your company. The development practise functions from the perspective of matching with the client in order to maximise the return on investment (ROI) of their applications. With our unique approach, interactions, and delivery models, we establish new markets and market trends; we assist our customers in adapting to the rapidly changing market trends.

Portfolio Managment

When it comes to representing a subject, evaluation and expression are always at the forefront of the process. Putting a firm, its breadth, its ethics, its ideals, its ideas, and its beliefs on display is a physical act of demonstrating one's own personal brand. An effective corporate profile presentation is a practical method to showcasing the most promising aspects of a company's operations, whether in the offline or internet markets. In order for a company to benefit from its worth expansion, TopologyPro provides corporate profile presentation concepts that are relevant over a broader spectrum.

BPO Services

Call centre inbound services are related to effective customer care and feedback. Business process outsourcing is booming in India. Live operators, account reps, and programme managers form a specialised team. These are experts in their fields. They take client calls and conduct promotional calls to potential consumers using IVR (interactive voice response). This is done for the clients.

WHY YOU SHOULD USE TOPOLOGYCOIN?

Transparency & intransigence

When tokens are exchanged on the BSCScan blockchain using the TopologyCoin platform, an audit trail is produced that identifies the source of the tokens. This can aid in the prevention of security and fraud in exchange-related businesses, as well as the verification of the legality of traded assets.

Reduced Fees

TopologyCoin transactions are substantially less expensive than debit and credit card purchases, wire transfers, and BACS payments.

Traceability of transactions

Due to the fact that each subsequent transaction is encrypted and linked to the initial one, TopologyCoin is far more secure than standard record-keeping systems.

TOPOLOGYCOIN is composed by a complicated string of immutable mathematical integers. Centaurify's immutable and incorruptible nature safeguards it from tampering with data and hacking after it is constructed.

Convenience of use

The value of TopologyCoin is derived from its simplicity of use. All you need to get started investing right now is a smart device and an internet connection.
